And many, many pro bono attorneys

If you have a criminal legal matter and cannot afford an attorney, one will be provided for you to protect your rights.

The same is not true in *civil* legal cases. If you face a civil case and cannot afford an attorney, you're often on your own, lost in an unfamiliar legal world with confusing terms and seemingly arcane processes.

Legal Aid is free legal information, advice or representation for a person who cannot afford it.

Legal Aid Delivers Solutions

- ✓ Saving a family home from foreclosure due to a job layoff or medical catastrophe
- ✓ Defending against the financial abuse of a senior
- ✓ Fighting to protect a consumer from fraud
